

FastCoins (FSC) Whitepaper

1. Introduction

FastCoins (FSC) is a next-generation decentralized token designed for use in the DeFi sector and gaming industry.

We aim to make financial services more accessible and convenient using blockchain technology.

2. Mission and Vision

FastCoins aims to create an ecosystem that combines gaming experience with decentralized finance.

We believe in democratizing financial services and empowering users to manage their assets in a secure and user-friendly environment.

3. Use Cases

3.1 In FSC Token Arena (Telegram Game)

- Purchase of items (weapons, armor, potions).**
- Character upgrades (enhancing attributes).**
- Access to special modes and tournaments with FSC rewards.**

3.2 In Web3 Applications

- **Payment for services (subscriptions, donations).**
- **In-game transactions and cosmetic item purchases.**

3.3 In DeFi Applications

- **Staking: Passive income for holding tokens.**
- **Farming: Profit from participating in liquidity pools.**

4. Tokenomics

Total Supply: 100,000,000 FSC

- **Liquidity: 30% (30,000,000 FSC)**
- **Marketing and Partnerships: 20% (20,000,000 FSC)**
- **Development: 15% (15,000,000 FSC)**
- **Staking Rewards: 15% (15,000,000 FSC)**
- **Reserve for Future Development: 10% (10,000,000 FSC)**
- **Team and Advisors: 10% (10,000,000 FSC)**
- **Vesting: Locked for 12 months with monthly distribution over 24 months.**

5. Security and Transparency

Smart Contract Security

- **Audit: Planned audit using Certik or Hacken.**
- **Protection Against Attacks: Defense against reentrancy, flash loan attacks, and liquidity manipulation.**
- **Code Transparency: Open-source code will be available on GitHub for community review.**

Governance and Operations Transparency

- **Decentralized Governance: Introduction of DAO for key decision-making.**
- **Public Reports: Regular reports on fund allocation and roadmap progress.**
- **Anti-Scam Mechanisms: Team tokens are locked for 12 months.**

6. Community & Governance

Decentralized Governance

- **Governance Model:** DAO with voting based on token holdings.
- **Example Decisions:** Smart contract updates, tokenomics changes, new game features.

Community Engagement and Support

- **Social Platforms:**
 - **Telegram:** https://t.me/fastcoins_official
 - **Twitter (X):** https://x.com/Fastcoins_FCS/
 - **Contact Telegram:** <https://t.me/qqqwwwrt>
- **Events and Activities:** AMA sessions, contests, and airdrops.
- **Community-Driven Development:** Openness to suggestions and participation in testing.

7. Technical Details

Blockchain and Smart Contract

- **Blockchain:** BNB Smart Chain (BEP-20).
- **Smart Contract:** Written in Solidity with protection against reentrancy attacks.
- **Minting and Burning:** Minting is disabled, burning for inflation control.

DeFi and Exchange Integration

- **DEX Listings:** PancakeSwap and Biswap.
- **CEX Listing:** Planned for Q2 2026.
- **DeFi Integration:** Staking, farming, and FSC Vaults for asset management.

FSC Token Arena (Telegram Mini App)

- **Game Engine:** Phaser.js with turn-based combat and attack animations.
- **Game Architecture:**

- **Frontend:** HTML, CSS, JavaScript (Phaser.js).
- **Backend:** Node.js + Express, integration with Telegram API.
- **Cross-Platform Compatibility:** Support for Telegram on iOS, Android, and Web.

8. Roadmap

Q1 2025:

- **Marketing and community growth:** Airdrops, contests, and influencer partnerships.
- **Integration with Web3 applications** for payment services.
- **Preparation for the launch of FSC Token Arena (Beta Version).**

Q2 2025:

- **Launch of Beta Version FSC Token Arena** with basic functionality.
- **Smart contract audit.**
- **Launch of staking and farming** with dynamic rewards.

Q3 2025:

- **Updates to FSC Token Arena** with new content.
- **Scaling marketing campaigns.**
- **Scaling using Layer 2 solutions** for network optimization.

Q4 2025:

- **Launch of FSC Vaults** for asset management.
- **Expansion of the FastCoins ecosystem** with new Web3 features.
- **Development of a mobile wallet.**

Q2 2026:

- **Listing on CEX.**
- **Strategic partnerships** with major DeFi platforms.

9. Contacts and Community

- **Twitter:** FastCoins_FCS
- **Telegram:** fastcoins_official

- **Contact Telegram: qqwwrt**
- **Contract Address: 0x86fac38115f2c8072357a605dfea8d10b7a33c74**

10. Conclusion

FastCoins (FSC) is a decentralized token combining gaming mechanics and DeFi functionality.

We aim to create an ecosystem that is useful, innovative, and secure. Join our community and help us change the world for the better!
